

Cloverdale Paint

Super Acrylic II is a premium, high performance coating with a washable finish, that was designed to have improved “touch-up” abilities. It exhibits superior application characteristics, such as smooth flow and outstanding levelling. Super Acrylic II provides excellent adhesion to unprimed and non-porous surfaces, is ideal for use on walls in high traffic areas and is suitable for interior and exterior use.

H I G H P E R F O R M A N C E

For institutional, commercial and residential applications. Meets MPI approvals for quality and Green Performance standards. Ideal for new housing construction where improved washability is required. Excellent for use on walls, doors, woodwork and trim.

Cloverdale Paint

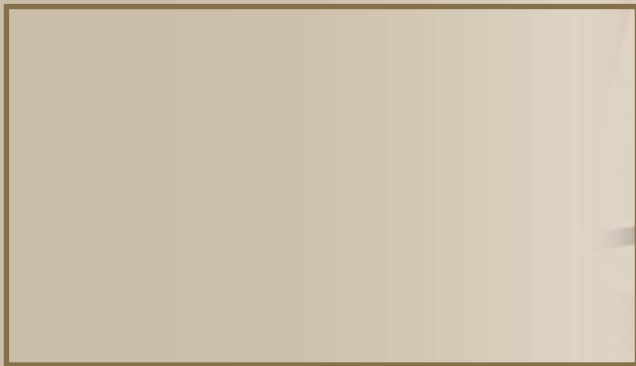

SUPER ACRYLIC II EGGSHELL & SEMI-GLOSS

"Over the years I've built the good reputation of my business by not taking short cuts and using quality paint."

Super Acrylic II flows and levels off the brush leaving a smooth look and feel just like the old oil base formulas we used to use when I first got into the business.

After the jobs done, my customers expect walls and trim that will wash well and stand up to everyday bumps and scuffs.

*I use Super Acrylic II.
My name depends on it!"*
