To our valued customers,

We wish to acknowledge and thank our customers and sundry vendors for your support over the past 18 months. First, we experienced the challenge of learning to work during a Pandemic. Then, product supply and availability issues arose as a result of the Texas winter storms this past February.

It's amazing that supply chains for paint and related application tools are still in a recovery mode since these events and strong global demand has compounded the problem. I know we are all looking forward to when our businesses can return to some form of normalcy.

During these challenging times Cloverdale Paint appreciates how our sundry vendors have worked closely with us in keeping up with the needs of our pro painter customers. Enclosed is the fall version of our traditional Pro Buys flyer for 2021 offering special savings to professionals on paint related application tools, accessories and spray equipment. Due to this year's issues with availability, the assortment of items on special is a little less than normal however Cloverdale Paint and our sundry vendors wish to offer additional savings to our customers where we can.

Our branches are presently well stocked with these specially priced promo items. You can take advantage of these savings either in store or you may order online. Thank you again for your support and we look forward to a return to a more normal business environment in the months to come.

Sincerely,

Tim Vogel - CEO, Chairman of the Board

Sandra Pandin - Sundry Category Manager

Cloverdale Paint

THE EH! TEAM

\$8595⁰⁰
each

SPRINT AIRFLUID X1 MANUAL POWDER UNIT

The new manual unit combines functionality and extraordinary design. By means of a central and dynamic knob, all parameters –grouped into four functional sections- can be set easily. The unique Cascade characteristic line setting and the TRIBO compatibility offer a high level of flexibility for any powder. In combination with the new manual gun PEM-X1, the manual unit gives perfect coating results. The powder feeding is carried out directly from the original container – optionally out of the 60l stainless steel container. 2355402

MultiMaster

Our Toughest and Most Versatile Coating

MultiMaster™ is a universal, self-priming finish with exceptional adhesion and toughness designed for both interior and exterior applications. Its waterborne formula provides a fast-drying, exceptionally hard-wearing finish for both Commercial and DIY applications.

- Exceptional adhesion and block resistance
- Self-priming to most surfaces
- Fortified with urethane for toughness and durability
- Applies like an alkyd with excellent flow and leveling over difficult surfaces
- Water clean-up
- MPI approved product

GUARDIAN

PREMIUM EXTERIOR FINISHES

You Can't Always Rely on the Weather Forecast!

Guardian acrylic exterior is formulated using Cloverdale Paint's "X-Link technology" allowing for successful applications in cooler temperatures and better early water resistance if you get caught out in the rain!

Extend your exterior painting season.
Guardian, acrylic exterior latex.
